

HIGH PERFORMANCE, MID TEMPERATURE

# INDUSTRIAL MASKING TAPE

# CP 500

Our high performance industrial masking tape is ideal for today's high tech transportation industry. CP 500 performs best in mid-temperature painting applications on cars, trucks, buses, and wet sanding applications.

> **High adhesion**

Adheres quickly and easily to metals, rubber and plastics. Exhibits excellent holding power up to 300° F

> **Clean removal**

Strips cleanly with no residue or paint flake after baking and extended dwell times. Resists adhesive transfer, preventing costly clean up.

> **Sharp, flat paint lines**

Smooth crepe paper tape lifts clean without slivering or adhesive transfer  
Resists moisture and solvents to minimize bleed-through

> **Easy to use**

Conforms to curves and contours  
Tears straight and easily  
Resists curling off the roll and lifting once applied
