

HIGH PERFORMANCE

# PREMIUM GRADE SPLICING TAPE

1977

FP 97 has raised the standard for best all around performance in premium grade, flatback kraft tapes. FP 97 utilizes our newest patented process to produce one of the most aggressive, high shear adhesive formulas on the market.

While specifically engineered for splicing in the manufacture of kraft cores, tubes, edge protectors and paperboard, FP 97 is also ideal for almost any substrate containing 100% recycled paperboard, groundwood free pulp, core ply, polyethylene film and polyethylene-coated board.

#### > Variety of applications

Ideal for heavy-duty fiberboard and kraft splicing, critical carton sealing, seaming and sealing of insulation, splicing of carpet padding, heavy duty mounting and production framing, tabbing, holding & bundling.

#### > Holds strong

With an exceptionally high shear and extremely aggressive adhesive, FP 97 provides outstanding quick stick and the highest holding power available.

#### > Long Lasting

Specifically designed to resist moisture, curl, abrasion, splitting, punctures, solvents, oils and weathering.
