

FOR SOLDIERS AND SPORTSMEN

SPECIALTY GRADE CLOTH DUCT TAPE

PC 626

PC 626 is the first duct tape that features the official digital pattern used for U.S. Army combat uniforms, making it the closest match to soldiers' camouflage. The cloth tape's lusterless film also reduces light glare, an advantage for both the military and for hunters.

> Camouflages material

The first tape with the U.S. Army's official digital pattern. PC 626 allows troops or hunters to make quick repairs in the field and add crucial camouflage to places, such as the stock of their weapons, that would otherwise be easier to spot.

> Deadens light/waterproofs

The tape's lusterless film reduces glare. And its waterproof backing makes it well-suited for outdoor use.

> Holds up

The 10 mil tape is easier to tear, and the laminate product is conformable, but the adhesion is durable – strong enough for soldiers and sportsmen to make quick seals, patches or temporary repairs.
