

FOR ASBESTOS AND MOLD ABATEMENT

CONTRACTOR GRADE DUCT TAPE

PC 629

Our 11 mil solution for cold-weather mold/asbestos abatement.

Our tape sticks. At temperatures as cold as 25° F. You can take it out of a cold truck, walk into a cold room and seal doors, walls and windows with cold poly-sheeting.

And with our new high-tack adhesive with superior shear characteristics, you can expect PC 629 to hold up for the whole job. You get the quality Shurtape puts into every roll of tape we make. Easy to use because it's easy to tear. You won't waste tape because PC 629 doesn't curl or twist off the roll. Instant quick stick makes application fast and easy on poly-sheeting, metal and unpainted wood. Ask for PC 629 today.

> **Works in cold weather**

Sticks to poly-sheeting at temperatures as cold as 25° F. Also works with metal and unpainted surfaces

> **Holds up**

New high-tack adhesive with superior shear performance grabs quickly and seals dependably.

> **Reduces waste**

Will not curl, twist, or fold over on itself, becoming unusable and creating excess waste.
